COOLANT RECYCLING TECHNOLOGY

Coolwash is an innovative solution developed by Prochem. Our industry-first **COOLANT RECYCLING TECHNOLOGY** system – or C.R.T - takes spent engine coolant, previously discarded as waste, and repurposes it into a biodegradable, performance-based truck wash.

With Coolwash, you can now reclaim and recycle your spent engine coolant safely and cost-effectively, allowing you to meet your environmental targets while keeping your operations running smoothly.

Group of Companies, we strive to provide exceptional customer service and remain at the forefront of industry innovation.

With our continuing dedication to excellence, we look forward to helping you with your needs.
